# About Us

We are a group of renewable energy and environmental professionals

## One Team, One Mission

Atlas Global Development Group, LLC

35 Years of clean energy business leadership

10GW Development pipeline across North America

WRA

EGI

Certified Professional Engineer (WRA) and Environmental Consultant with start-to-end experience managing renewable development in Arizona:

- Snowflake Solar Complex (Holbrook, AZ)
- Co Bar Solar Complex (Coconino County, AZ)

RED SANDS SOLAR PROJECT

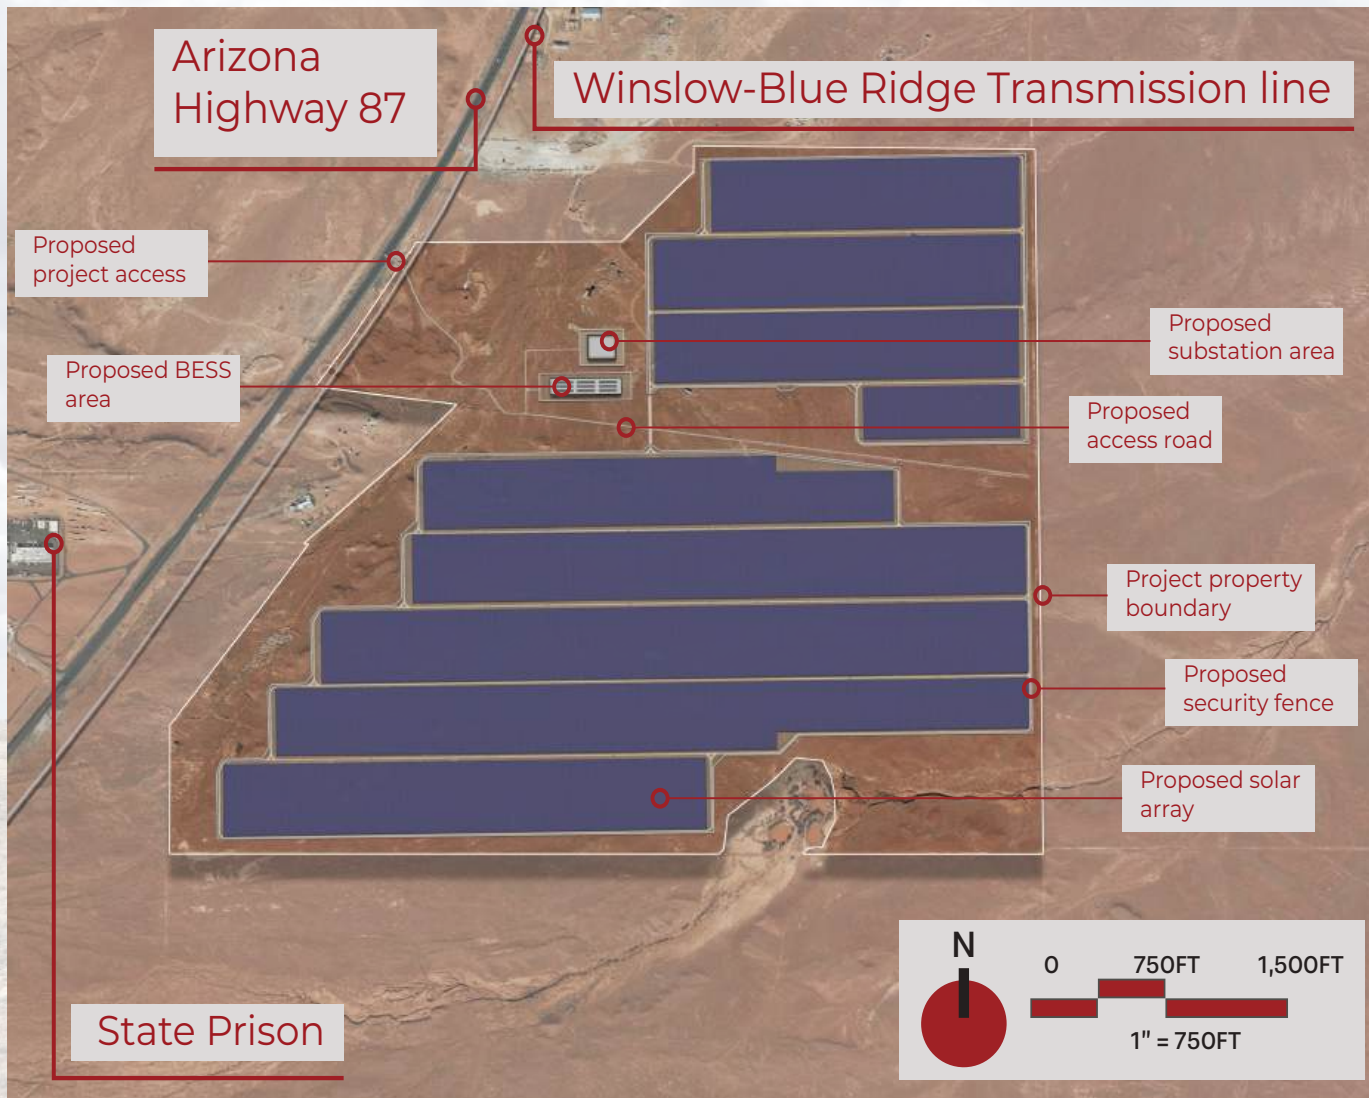

# The Project:

Atlas Red Sands Solar Project consists of a 400 acre site with 130,000 solar panels, 40 energy storage battery (BESS) units, and a substation.

The Project will interconnect with the existing Winslow-Blue Ridge 69kV transmission line, which runs along Arizona Highway-87.

SOLAR PROJECT

# Purpose & Benefits

Atlas Red Sands Solar will deliver safe, clean power to the local and regional grid, boosting reliability while reducing environmental impacts.

The project will also create jobs and invest in the local economy.

188,000MWh  
annual  
solar energy  
production

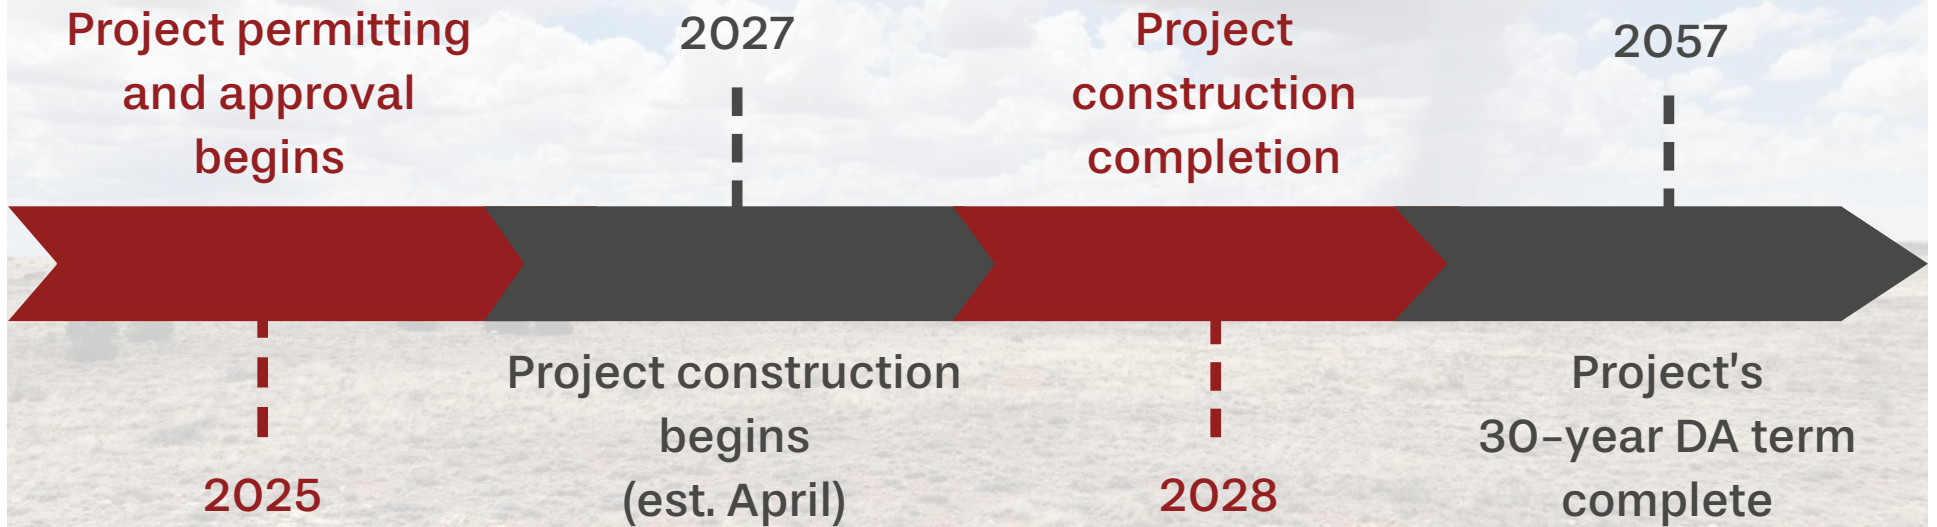

An  
estimated 5-15  
construction  
jobs created

Brings over  
an estimated  
\$315,000.00/year  
in county  
tax revenue

# Project Timeline

# Path to Approval

## Development Agreement

- A negotiated contract between the developer and Navajo County
- Sets project-specific terms beyond baseline zoning building permits
- Used to lock in public benefits, responsibilities, and enforceable conditions for construction + operations

### Development Agreement Public Outreach Requirements

Within 1 mile of project boundary within 300 feet of access routes / roads needing improvements

- Mail notices (first class) with project description, routes, vicinity map, layout + setbacks; notify incorporated communities within 5 miles
- Hold at least two public meetings in the project area  $\geq 30$  days before the P&Z/BOS hearing and/or DA execution
- Create a project website with plan/context/summary + comment mechanism before the first public meeting
- Provide a 24/7 hotline/contact posted at entrances; respond within set timeframes; provide monthly complaint summaries to the County
